

# UR Fog

THE FASTEST SECURITY FOGGING SYSTEMS

## A COMPLETE RANGE OF PRODUCTS FOR ANY NEED

### EASY

up to 210 m3 (zero visibility)  
one cylinder (not included)  
shoot all cylinder in one time  
cylinder models: 50/100/210 m3  
vertical installation  
arming, shooting, no outputs

### FAST 03 1C

up to 200 m3 (zero visibility)  
one cylinder , included  
shot programmable in seconds  
vertical/horizontal installation  
arming, shooting and outputs  
orientable nozzle, tampered

### FAST 03 2C

up to 200 m3 (zero visibility)  
two cylinders , included  
shot programmable in seconds  
vertical/horizontal installation  
arming, shooting and outputs  
orientable nozzle, tampered

### FAST 02 2C

up to 400 m3 (zero visibility)  
two cylinders , included  
shot programmable in seconds  
vertical/horizontal installation  
arming, shooting and outputs  
orientable nozzle, tampered

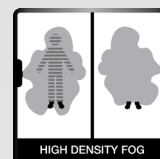

### FAST 01 2C

up to 1200 m3 (zero visibility)  
two cylinders , included  
shot programmable in seconds  
vertical/horizontal installation  
arming, shooting and outputs  
orientable nozzle, tampered

The fastest and most powerful machines shooting up to 1200 m3

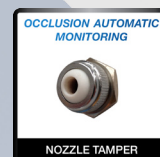

The most dense fog among fogging systems thanks to an 80% glycol in its fog fluid and the proprietary shooting technology based on fog cylinders

Double fog cylinder is the patented best solution to shoot fog and is very easy to change the cylinders as they do not need to be recharged, when the first is empty the machine switch automatically on the second

Thanks to the massive insulation ur fog fogging systems have a very low power consumption and can shoot for longer time in absence of main power, temperature is stable all the time .

Another exclusive, patented and very useful plus that allow to detect automatically if the nozzle is tampered and try to shoot out anything that stop the nozzle beside sending an advise signal

A unique serial bus to plug on the electronic board an add on board that allow to make easily interface cards for direct connections with alarms and to allow the full control of the machine even from remote, it has a standard protocol for all machines

10 years warranty on the shooting mechanism as it is more reliable then other standard technologies and on the heating system thanks to the stable working temperature that do not stress the weldings.

UR FOG fogging systems are certified after European regulation and its fog fluid is assessed as not dangerous for people and animals and do not leave residuals
